(54) Title: A METHOD AND AN APPARATUS FOR REQUESTING A SERVICE IN A NETWORK

(57) Abstract: The invention relates to a method and an apparatus of requesting a service from a communications network. In the method the following steps are to be performed: generating an objective statement in a user equipment; communicating the objective statement from the user equipment to a mediator unit; comparing the objective statement to a list of objective statements in the mediator unit; establishing the service based at least partly on the comparison; and providing the service to the user of the user equipment.
